## SECRETARY FOR DE LANCEY TELLS OF \$30,000 SHORTAGE

### SENSATIONAL STORY IS TOLD GRAND JURY

#### WITNESSES DESCRIBE HOW DE LANCEY TRIED TO COVER HIS THEFTS

Administrator Gray Denies That He Received  
Any of Money Through the Acts of  
His Attorney or Clerk

More sensational details of the scandal in connection with Public Administrator Gray's office came to the surface this afternoon when District Attorney Donahue filed a transcript of the evidence presented by him at the session of the Grand Jury last Thursday in the Superior Court.

According to the testimony Attorney John S. De Lancey was short about \$30,000 in his accounts when Superior Judge Brown ordered Administrator Gray to turn over all of the funds in his possession to the County Treasurer.

In order to make this shortage good De Lancey, with the assistance of his father-in-law, W. H. MacKinnon, was compelled to call upon several of his friends to come to his assistance.

Flood also tried to help him by making a demand upon J. A. Munro the auctioneer, to go on De Lancey's note for \$10,000. He failed. Then MacKinnon tried his hand and influence, but again Munro refused to be persuaded. This is by authority of the testimony of Munro himself.

Finally De Lancey made up the deficit but not until, according to the testimony of Marian Stevenson his father, John De Lancey, his father-in-law W. H. MacKinnon and County Clerk John P. Cook and W. E. Dwyer came to his rescue. Miss Stevenson is the stenographer in the office of the Public Administrator and she told the Grand Jury that Flood had told her that the parties above mentioned had come to De Lancey's relief.

#### De Lancey Tries to Borrow Money From Gray

Public Administrator Gray admitted to the Grand Jury that he knew his accounts were short, but in what amount he could not say. "The shortage must be \$50,000 and it may be \$75,000," said Gray. "I can not be more accurate at this time because I do not know myself."

Gray told the Grand Jury that at the time the Superior Court ordered him to turn the funds over to the County Treasurer De Lancey made a demand upon him for a loan of \$10,000. The attorney then went to the Public Administrator in a room together and said he had to have \$10,000 and he wanted Gray to loan it to him. Gray offered to transact to him for security a piece of property in Oakland valued at \$2000 and all court fees he claimed to be.

The Public Administrator refused to loan the money and then De Lancey threatened to sue Gray for the money. Gray then let him have the \$10,000. The Public Administrator was even this threat would not.

The testimony also showed that Wickham Havers was the real bidder for the lot belonging to the Sybold estate, for the sale of which Walter H. Leimert and De Lancey divided a "rake-off" of \$412.80. This was the amount charged by Leimert although he admitted before the Grand Jury that his purchaser did not finally acquire the property. In fact, it is he and De Lancey who split a commission of \$412.80 taken out of the Sybold estate for a purchase that Havers never made. And all the time that Leimert was negotiating with De Lancey to act as agent to sell the property he was entirely ignorant of the fact that the indicted lawyer was the legal representative of the Public Administrator and was acting for that official in the disposition of the property, so he says.

#### Administrator Gray Pleads Ignorance

Admitting to the Grand Jury at its last session that he did not know how much he was short in his accounts, Public Administrator Gray testified that the deficit was all the way from \$5000 to \$20,000, and possibly more. This deplorable condition of affairs, he admitted, was due to the careless manner in which he had conducted his office, and the misplaced confidence he had reposed in Attorney

#### De Lancey and Flood Arraigned

Attorney John S. De Lancey and A. J. Flood appeared again before Judge Brown in the criminal department of the Superior Court this morning with their lawyers. De Lancey pleaded not guilty to the indictment for forgery in connection with the administration of the A. J. Pounstone estate, whereupon the court continued the case for one week to be set for trial. The erstwhile legal adviser of the public administrator was also arraigned for the embezzlement of \$10,000 belonging to the estate of the late George Little Cook, and on the other three indictments involving the falsification of two official reports of the public administrator and the falsification of public records and upon request of Attorney H. M. Church he was allowed another week to plead.

Flood was present in the courtroom, but at the request of Attorney H. M. Church he was allowed until next Monday morning to plead.

A check for the estimate made by Commissioner of the Hall of Records, which shows that the accounts of the public administrator for the year 1908-1909 are \$24,000 in arrears, was presented this morning for filing in the records of the court. The check was for \$24,000 and was signed by the public administrator. It was presented to the court by the district attorney.

WHO WAS BENEFITED?  
The check was made by the public administrator for the year 1908-1909. It was presented to the court by the district attorney.

NO AUTHORITY GIVEN  
The public administrator was not authorized to make the check. He was not authorized to make the check. He was not authorized to make the check.

### HARRIMAN HAS PHYSICIANS RUSHED TO BEDSIDE

Rumors of Relapse Verified by  
Calls Sent From Arden  
to New York

NEWSPAPER MEN AGAIN  
SURROUND HIS HOME

Doctor Lyle Says His Patient  
is Now Suffering From  
"Acute Indigestion"

ARDEN N. Y. Sept. 7.—Alarming rumors regarding the condition of E. H. Harriman have been revived following his relapse of Sunday night. It is believed that the attack caused a hurried call for a New York nurse and probably two nurses one for the day and one for the night was a temporary sickness caused by a sudden change of temperature or an indiscretion in diet in which the sick man in his weakened condition was unable to throw off. Dr. W. G. Lyle, Harriman's private physician, calls the attack, "acute indigestion." In his statement last night he said that his patient was better.

REPORTERS ASSEMBLE  
One result of the news has been a swift assembling of the newspaper representatives whose presence a week ago at a dinner leading to the Harriman home finally caused the sick man himself to issue a statement regarding his condition and promise that if the press of the country would withdraw its representatives he would see that it was notified of any subsequent crisis in his condition. For this reason an effort is being made to secure daily news from Dr. Lyle.

While Harriman's attack in itself may not be serious there is always danger of grave consequences in the case of a man as weak as he. This is believed accounts for the anxiety of those surrounding the sick man. It was said today that although the progress of Harriman's latest attack has been arrested his temperature remained high and he is exceedingly weak.

The best information is that he is well and although no confirmation of the report has yet been obtained from the house, little doubt exists here that there are other physicians attending him besides Dr. Lyle.

Whether these doctors remain constantly at his side or only make frequent trips from New York has not been ascertained. Talk of an operation has been revived.

A SICK MAN  
Oddly told a passenger on the train that Harriman was a sick man. The ex-Governor had long been a close friend of Harriman and it is believed that he had been at the Harriman home for some time. He is believed to be a close friend of Harriman and it is believed that he had been at the Harriman home for some time.

ADmits ILLNESS  
NEW YORK, Sept. 7.—At the Union Pacific office this morning no direct information concerning Harriman's condition was obtainable.

"I shall have to refer all inquiries to Dr. Lyle," said Judge Lovett. It is true that Mr. Harriman had another attack of indigestion, but I understand he is feeling much better this morning. Representatives of the Harriman banking interests were with Judge Lovett this morning but it was declared that no significance was to be attached to this.

STOMACH TROUBLE.  
NEW YORK, Sept. 7.—An intimate friend discussing the rumors that occurred on Saturday said today: "I think the time has now come when the public should understand the nature of Mr. Harriman's illness. As you know, he is not strong and very nervous and of course has been loaded down with tremendous responsibility. Last year there developed a difficulty at the point where the stomach enters the intestines. This is sometimes called chronic knot or sometimes rheumatism and sometimes indigestion."

Mr. Harriman under the advice of his physicians went to San Antonio and came near the hot wells. These wells have a temperature of about 110 degrees and are strongly impregnated with sulphur. Then when he returned to New York, while he was much improved his physicians concluded it was best for him to go to Bad Gastein. This he did accompanied by Dr. Lyle.

Dr. Cook Congratulates Rival  
and Says He Does Not  
Want Controversy

LONDON, Sept. 7.—The Reuter Telegram Company publishes a dispatch from St. Johns, N. F., in which it is said that Commander Peary claims that he was the first man to reach the North Pole.

NEW YORK, Sept. 7.—That there will be a dispute between Dr. Cook and Commander Peary over the priority of the discovery of the North Pole is shown by today's developments, despite the fact that Dr. Cook claims to have reached the top of the world April 21, 1908, while Peary did not nail the flag there until April 6, 1909.

Although Dr. Cook states that he does not want any controversy, it is believed that the claims of the two men will be the basis of a sensational argument.

ST. JOHNS, N. F., Sept. 7.—The Peary Arctic steamer Roosevelt left Indian Harbor, Labrador, today for the south. She will touch at Battle Harbor, which port she probably will not reach before tomorrow.

#### COOK CHARGES PEARY

COPENHAGEN, Sept. 7.—By going ahead further to the east than I did, Commander Peary has cut out of the unknown an enormous space which I am sure will be of vast use and benefit to the world.

So said Dr. Cook when he was told about the dispute over the claim of Commander Peary to the North Pole. "I am the first to shout Hurray for Peary," he declared. "If Commander Peary has discovered the North Pole, it is a great discovery. I am a friend of his."

Asked whether Commander Peary might have found the North Pole before him, Dr. Cook replied:

"No, I scarcely would have come across his tracks."

DIENES THEFT CHARGE  
Dr. Cook then said:

"I understand that a rumor is current about my having taken some of Peary's provisions at Etah. This is founded on Eskimo gossip and misunderstanding. I desire to make an unqualified statement that I am a friend of his."

Dr. Cook also said that he is present in St. Johns on board the Peary, which will leave for New York on September 10.

PEARY NOT QUESTIONED  
The rumor of Peary's having been frequently in Copenhagen today, then that of Cook's, experts the general public and the newspapers accept Peary's triumph as an unquestioned fact. While loyal to Dr. Cook, the people awaited the publication of the details of his observations. The University of Copenhagen tomorrow will make Dr. Cook honorary professor of science, a great distinction in the honorary career of the explorer.

TOURISTS VIEW COOK  
Four hundred English tourists are expected today for an excursion into the country, but the party remained in Copenhagen to see Dr. Cook.

No one was more interested in Commander Peary's announcement than Cook.

SAN FRANCISCO Sept. 7—Worn out by illness and worry, Clara Zula La, widow of W. V. Herriot, an English explorer, was found in an unconscious condition at her apartments at the Hotel Menlo yesterday afternoon by a chambermaid and removed to the Emergency Hospital where she was found to be suffering from an overdose of veronal, a drug she has been in the habit of taking.

Beside Miss Lew's bed were found ardent love letters and poems from William Hamilton, a wealthy New York stock broker.

After registering consciousness today, Miss Lew declared that she had loved him a long time before her marriage. In fact, but that of late she had refused to communicate with him. Until recently she has been living at the Young Women's Christian Association in this city, where employed as a stenographer. Her health has been poor.

Following is a copy of one of the passionate effusions found by her side in the stock broker's writing.

Wilfred Laurier Offered High Place In South Africa

SIR WILFRED LAURIER.

WASHINGTON, Sept. 7.—A letter from a prominent official in London, just received in diplomatic circles here, states that the British government will offer the position of high commissioner-general of South Africa to Sir Wilfred Laurier as a tribute to his long and brilliant career in Canada.

Sir Wilfred, who has been spending the past few years in this country, refuses to discuss the matter until he has received a definite answer from the British government. It is reported that it is extremely unlikely that he will accept even should the post be tendered him. For one thing, it would take him far from his family and for the greater part of the year, and just now, Sir Wilfred's friends are anxious to remain in London.

great newspaper which I hope you have not yet listened to the preachers which I believe you did not hear. I believe that you are working for votes—which you don't get.

If you had those editorialists you will learn that labor and capital are friends. I believe I can prove that by every great newspaper in the world.

**WOULD OPOUSE CAPITAL**

If labor and capital are friends, then the social unionism takes on the badge of the better because capital is strong and takes care of you. If labor and capital are friends, then trades unionism is wrong. If you ask me if trades unionism is right, I will say it is right in this and that, but in the whole society in which we live, it is wrong. If labor and capital are friends, then trades unionism is wrong. But are they friends?

No, come from a hundred voices in the land. I believe that you are working for votes—which you don't get. If you could get all the workmen in the world, you could not control the price of labor just as the employer controls the price of what he sells.

M. Thompson of Oakland, president of the State Labor Council, was interviewed and spoke as follows:

The world has come to know that labor unionism has a mission in life, a duty to perform, a step to take, a goal to reach. It is not a mere political device, but a social movement, a new responsibility and even a new power. It is a movement that will stand the test of time and adversity, the power of repression and the power of the state. It is a movement that is not a mere political device, but a social movement, a new responsibility and even a new power. It is a movement that will stand the test of time and adversity, the power of repression and the power of the state.

**TWO BIG FACTORS**

With the growth of industry, the factors of production become employer and employee. With all that those words have come to mean, and with a commerce made up of many hands, and with a social order that is more and more complex, the personal equation was not a mere detail, but a detail of importance. It is a detail that is not a mere detail, but a detail of importance. It is a detail that is not a mere detail, but a detail of importance.

**IS MADE SCAPE GOAT**

When the conditions of labor have become so complex, and the social order so complex, the personal equation was not a mere detail, but a detail of importance. It is a detail that is not a mere detail, but a detail of importance. It is a detail that is not a mere detail, but a detail of importance.

## In the Public Eye

In nailing the American flag to the North Pole  
Peary must have used a trip-hammer

Admiral Melville says that only a properly equipped expedition could possibly reach the North Pole and that such expeditions cost about \$250,000, three or four times the cost of the Peary-Cook expedition, which cost hardly more than \$50,000. To equip must have been a task. Perhaps some one will now be ungenerous enough to charge that there must have been a big grant in the \$250,000 expeditions.

As the ceremony arouses patriotic sentiments among the people, he suggests that its place be taken by other events such as vocal duos, concerts, manifestations of various kinds, and in time may it be decided that this project will not receive the approbation of the commission. The ceremony is one of long established use and has made for itself a firm place in the circle of Mexican ceremonies and observances—*Mexican World*.

## Officials Must Reinstate Teacher Who Kept Menagerie

LONDON. — The school officials in Chatham, England, who recently requested the resignation of Miss Handford, as principal of a public kindergarten, because she kept a "menagerie" for assisting nature study, find themselves the victims of ridicule all over England. This case also has taken on national importance, as it is to come up in the Commons. Miss Handford was given the option of resigning or getting rid of her "menagerie." She resigned and now the full list of the inhabitants of her zoo has been given out as follows: Two white rabbits, two white rats, four white mice, one guinea pig, two tortoises, two frogs, two snakes, three caterpillars and a moth. For this collection she lost her position as principal of one of the largest kindergartens in England, and an investigation has shown the judges who caused her resignation include two newspaper editors, a grocer, a tailor, a bricklayer and a saloon keeper. Miss Handford distributed all her pets except the rats among the children to care for them over week-ends. The pupils and their parents have protested against her removal. Her work as principal has been commended by the government inspectors, and it is believed the school officials will be forced to reinstate her.

## Once Society Woman; Admits Theft

CHICAGO.—Mrs. Frances Everett, forty years old, who said she once lived in New York society and that she had wealthy relatives in the East, told a painful story to Municipal Judge Morrison today after pleading guilty to a charge of larceny.

Mrs. Everett was charged with stealing silver and clothing valued at \$75 from Mrs. E. Mullen, owner of a boarding house.

"I beg you to be lenient with me," Mrs. Everett said to the court. "I am an unfortunate woman. I was addicted to the use of morphine for more than a year. I don't mean that I am a bad woman."

"I was a wealthy woman once. My father is a graduate of Yale. I have been to Europe six times. I was married to Frank Roberts in 1892 and we lived in New York City. Mr. Roberts was killed and I fell heir to \$200,000."

"In 1893 I married a man named Holst, a grocer in New York. I eventually became penniless. I worked for years to pay back money he owed. I got a divorce in New York in 1901."

"I can't tell you how I ever became addicted to the use of morphine. I have broken myself of the habit and I ask you to let me be lenient with me."

Judge Morrison postponed the case until Wednesday to consult her physician.

## Will Leave Concert Career To Take Up Grand Opera

AUGUSTA ZUCKERMAN.

Augusta Zuckerman, the young American pianist, will abandon the concert for the operatic stage.

It is said she has received a good offer from a London manager and has been advised by her friends to accept it. According to the story, a part has been written for her in which she will appear as a pianist and play two or three numbers during each performance, so that she may keep in touch with her favorite instrument. There is precedent for this change in profession, for Mme. Sembrich, the great soprano, began her career as an instrumentalist.

## How Children Are Lulled to Sleep AMONG THE INDIAN HILL TRIBES

An Indian correspondent writes: "While out for a holiday among the Hinnayalas I came across a strange practice of the hill women. Where a small stream forced its way out of the hillside, bamboo pipes or channels had been thrust into the bank, so that several small but steady streams of water poured out six inches above the ground. Babies, wrapped up tightly in nets, had been placed there in a row, and a stream of water fell an inch or two on to their heads, and then was led away into a little ditch at the back."

"I found on inquiry that this was a common practice of these women, who work in the fields with their husbands, and leave their children asleep like this for hours. I tried the method myself, and, after the first shock of cold, a most delicious sensation of rest stole over me. I felt as though I could remain there without thought or trouble for ever. It was a distinct and unique sensation."

## Record in Grandmothers Which Includes the Count of One Great-Great and One Great, and Girl Has Nine

INDIANAPOLIS.—Miss Dorothy Freeman, one year old, 2504 Gale street, boasts of as many living relatives as any little girl in Indianapolis. She has twelve to the sixth generation. Three greats and being required to describe the exact position in the line of Jacob Bishop, a great-great-grandmother still living. Dorothy represents the fifth generation in a line of women all of whom are alive. Mrs. Catherine Deans, her great-great-grandmother, lives at 808 North New Jersey street and is 82. Mrs. Mary B. Smith, aged 65, 529 North East street, is great-grandmother; Mrs. John O'Mara, 41, 253 North East street, grandmother; and Mrs. Hazel Freeman, 2504 Gale street, is Dorothy's mother.

## Wins Aged Spouse By Kindness As Nurse

WINSTED, Conn.—Mrs. Harriet Nesbitt Blecher, 46 years old, won a husband in George B. Owen, 75, vice-president and general manager of the William L. Gilbert Clock Company, through her nursing. News of the wedding, which took place at the summer residence of the Rev. George W. Judson, pastor of the First Congregational church at Highland Lake, Friday, did not come out until today. It occasioned great surprise.

Mrs. Owen's attentions to Mrs. Blecher had become so marked that his children, it is said, recently notified her that her services were no longer required. Unknown to his children, Mr. Owen and Mrs. Blecher drove to the homes of two daughters, the second of whom married them.

Mrs. Owen went back to her own home, on Cottage street, after the ceremony, and on Saturday went to New York to transact business, her husband said. She did not return this evening.

has been followed up to the present. The last person to wear it was Miss Allen, daughter of Mr. and Mrs. William Russell Allen of St. Louis and Pittsfield, who was married to Henry Rodgers of Albany two years ago.

## WHAT WOMEN ARE DOING

ST. LOUIS. — A co-operative courtship carried on by John J. Cuddihy and his bosom friend, Thomas A. Grady, has resulted in a double wedding at St. Leo's Church. The brides are sisters.

Cuddihy and Grady, who have been close friends or years, laid siege to the hearts of Alice and Mary Antram, daughters of James H. Antram, 283 North Jefferson avenue. After a lengthy courtship Miss Alice, the elder of the sisters, accepted Cuddihy and the wedding was set for this month. A short time later Miss Mary capitulated to Grady's attentions and set the day for some time next February.

A few days ago Miss Antram jokingly remarked to Mary that she was rather slow in letting Miss Mary set so far distant a time for their wedding, and suggested that there was no time like the present. The young man took the hint, and the double wedding was the result.

The ceremony was performed by Rev. Father Morgan, acting pastor of St. Leo's Church, in the presence of a large crowd. After the wedding a breakfast was served at the home of the bride's parents, and he couple left for Duvenport, Ia., on a honeymoon.

"I only have one daughter left now," said Mrs. Antram, the mother, Wednesday, "and I don't want to see any more young men around here for some time. Two at a time is almost too much."

FREELAND, Pa., Thomas E. Lewis, secretary of the Freeland Y. M. C. A., was married last evening to Miss Annie Eisenhuth, vice principal of the St. Clair High School. The ceremony was performed by the Rev. Romie, secretary of the Pottsville branch of the Y. M. C. A.

The groom, who is the smallest man in this part of the State, measuring only 5 feet 6 inches, is a tennis expert and physical culture instructor. His bride, a stately brunette, stands 5 feet 2 inches. She has taught school in St. Clair for the past seven years.

The marriage is a happy climax of a chance meeting at a church convention two years ago which both attended as delegates.

Although fast friends since that time, the marriage came in the nature of a surprise to their friends.

Miss Rose Weintraub of Philadelphia is at the head of the movement to erect a monument to Elizabeth A. Phillips, known as Miss Santa Claus, whose death was recorded the other day. The work is being directed by the Elizabeth A. Phillips Memorial Association and the costs and dues from children who wish to contribute to be found are to be received by Drexel & Co., and Albert F. Meyer, who used to supply whatever children Miss Santa Claus needed to distribute her gifts at Christmas, will be treasurer.

## Indiana Girl Runs Engine

Miss Harriet Spangler, yet in her teens, a daughter of Mr. and Mrs. P. P. Spangler of Union township, Indiana, probably holds the record of being the only girl engineer in the State. However this may be, she is an engineer and a good one, as any person may see any day should he find her running the engine for her father's threshing outfit.

For several years while her brother was running his sawmill she often usurped the position of foreman, when she performed as well as a veteran and the idea grew upon her that she might also be the engineer. She did not see the need in the traction engine for her brother's thruster during the season, and she got the position, which she is filling in an ideal manner.

She does this engine and attends to the peculiar and exacting work of the traction engine on a level with any one of the men who are in the business.

## 500-Pound Woman Dies; Requires a Special Casket

NEW YORK.—Mrs. Theret Hobbs, 38 years old and weighing 500 pounds, wife of Joseph Hobbs, a restaurant keeper at 214 Seventh avenue died today in the New York Hospital. The immediate cause of death was pneumonia, but the contributory cause was pleuritis. It will be necessary for a special casket to be constructed for her burial. It will be forty inches wide, thirty-six inches deep and six feet long.

Until about three years ago Mrs. Hobbs was of ordinary size. She was of French extraction and was a thoroughly good looking, sunny, without any apparent cause, she began to take weight in all parts of her body except her legs, which she kept rather than grow.

Yesterday she was in the restaurant with her husband and when she was seized with an attack of coughing. She complained about it at first, but when it became more and more distressing she called for the doctor. She was taken to the hospital and died.

There was a lot of talk yesterday for her husband, who is a salesman and an ambulance driver from the New York Hospital, was seen on the scene. It took the combined efforts of four other policemen and Mr. Hobbs to lift the woman into the ambulance.

## "Necklace Club's" Seventh Girl Engaged

LENOX, Mass. — Society in Pittsfield was interested today in the announcement of the engagement of Miss Martin Campbell Plunkett, daughter of the late William B. Plunkett of Pittsfield, to Henry Rodgers of Madison, Wis. The wedding will be held at the home of Mrs. W. L. Plunkett and Henry Rodgers.

Miss Plunkett will be seventh of the fourteen members of the old Necklace Club. The six married girls are: Mrs. Henry Rodgers of Pittsfield, Mrs. William B. Plunkett of Pittsfield, Mrs. William B. Plunkett of Pittsfield, Mrs. William B. Plunkett of Pittsfield, Mrs. William B. Plunkett of Pittsfield, Mrs. William B. Plunkett of Pittsfield.

Fourteen young women who had all ways been close friends formed the old Necklace Club seven years ago, and found a beautiful necklace with four links and links. Each link was to bear initials of a member, and after her marriage her husband's initials were to be engraved on it. It was agreed that the first person engaged should wear the necklace until she was married. Then it should be passed on to the next until all were married by betrothal. This rule

# TRUSTEES WILL FAVOR AUTO RACES

San Leandro Body Has Majority in Favor of Giving Permit

## TO VOTE ON QUESTION AT TONIGHT'S SESSION

Toffelmeier and Rideout Will Favor Requests of Merchants

SAN LEANDRO, Sept. 7.—Pressure has been brought to bear on the merchants of San Leandro upon the Board of Trustees to have them look favorably upon the applications to be made tonight by the promoters of the automobile races. Two of the trustees are absent and only three will be present at tonight's meeting, and two of them, Trustees Toffelmeier and Rideout, having stated that they have no objection to the automobile races, they, forming a majority at tonight's board, the permits will without doubt be granted.

## BROAD GAUGED VIEW

"I believe that the automobile races will be a good thing for San Leandro, if only from the standpoint of the business. A large number of automobiles tearing through the streets may do some damage to the roadway, but we have the wishes of the merchants to respect, and if they are in favor of the races, I see no reason why the trustees should block them."

## TRAINERS OPTIMISTIC AND FIGHTER FULL OF CONFIDENCE AT THE KAUFMAN QUARTERS

Shaughnessy Tells of Stimulant for Pugilists Better Than Oxygen

By EDDIE SMITH.

Confidence seems to be the byword at the Kauffman camp down at Joe Miller's place near Colma. It is not the brazen, ideal sort of confidence but that deep, self-reliant feeling that comes to a fighter who has been carefully nursed along by his handlers. Nothing within the power of man is being left out at the Kauffman quarters to send the fighter into the ring at the end of the eighth round. The fighter is full of confidence and the trainer is full of confidence. The fighter is full of confidence and the trainer is full of confidence.

**MANTELL WEAK HITTER**  
Most of the time was spent in the first round. Mantell was a weak hitter, and he was easily outmaneuvered by Jackson. The fight was a very close one, and the referee had to stop the fight at the end of the eighth round.

# EIGHT OUT OF NINE, OAKS' RECORD WITH ANGELS

## CHRISTIAN TWIRLS GOULF BALL IN FINAL GAME OF THE SERIES

### Wheeler and Umpire McCarthy in Mix-Up Delay Game Fifteen Minutes—Officer Removes Player From Diamond

By HERMAN F. BUDDE.

If the Athletics never do another thing this season, their work of the past week against the Angels has been such a character as never to be forgotten. Eight out of nine is a record in the history of the game, and the manner in which the Angels won the last game of the series was a masterpiece of strategy.

## WIFE RECOVERING AT HOSPITAL IN IGNORANCE

Father Will Break Sad News to  
Widow Some Time  
Tonight

ALBANY, Sept. 7.—The news of the death of Major C. Bryant, of Albany, N. Y., who died at the Albany hospital, after a long illness, was received here with surprise. Major Bryant, who was 65 years of age, had been suffering from a series of strokes for some time. His wife, Mrs. Bryant, who is 62 years of age, is recovering at the Albany hospital, but is in such a state of ignorance of her husband's death that she is unable to leave the hospital. Her father, Mr. Bryant, who is 75 years of age, is expected to arrive in Albany tonight, and will then break the sad news to his daughter-in-law. Major Bryant was a prominent citizen of Albany, and was well known in the community. He was a member of the Albany club, and was a frequent visitor to the city. His death is a great loss to the community.

"Dustin Farnum," tonight, at the Macdonough Theater.

**RANKIN SHARES HONORS**

While there is a trade boom running through it, there is many a lull in the supply in this instance, notably by McKee Rankin, who plays the part of Rankin, a gambling companion of "Sammy." Rankin's acting seems quite beyond

any finding him. He is met by "The General" (Donald Crisp), the hitless brother of Tom and Adele Randall, who sees in "Sammy" the hero of some of the romantic fiction he has been reading.

**SAVES HIS LIFE**

Adele enters and saves the life of the

"Anne's brother is out that very morning to kill. She takes 'Anne' to the Randall plantation, little knowing who he is, and she is killed. And so the play ends." Then follows a series of dramatic episodes in which "Anne's" real name and more important still, something of his real true worth, are discovered.

Others in the cast were W. M. Carter, Ben Caplan, John Hamilton, William H. Hall, J. H. Webster, Nora Emily Maud Hewford, Jane Kendrick and Gladys Williams.

"Anne Kirby" will be given tonight and tomorrow afternoon and evening.

NEW YORK, Sept. 7.—The marriage is just announced of Harry Thurston Peck, professor of Latin at Columbia University, and Miss Elizabeth H. Peck, a teacher of classics in the same

institution. Professor Peck is as well known throughout the West, where he was an educator for many years, as he is in the East. His divorce from his first wife two years ago in Dakota created considerable comment.

TOKIO, Sept. 10.—The press is carrying long special dispatches from Seattle concerning the entertainment of the Japanese delegation by the civic authorities and trade bodies of that city. The warm reception extended to the visitors is creating a profound impression here.

# NOW!

"Now is the time to get a lot at Melrose Heights. If you wait too long they will all be sold. During the past six months we have sold over 400 lots and have only 200 more to sell.

You can secure one of these lots by making a small deposit. We will arrange the balance to suit your convenience or will build you a residence on one of these lots and let your rent money pay the balance.

As an investment, Molson-Highlights offers more than 100% average for-  
 ward price returns at substantial profits.

Malrose Heights will not be a "cheerup" residence section; no houses tending to cheapen the tract will be erected. All buildings must be a uniform distance from the front property line. Curbs,

sewers, sidewalks, ornamental trees, macadamized streets, gas and water mains will be installed free of charge by us.

Melrose Heights is as easily reached from San Francisco as Oakland, Berkeley or Alameda.

The man who wants to live in a quiet suburban locality, near two great cities, where pure air, fine climate, good water, delightful surroundings, pretty homes and rapid transit are assured facts, had better purchase at Melrose Heights **at once.**

We are willing to give you our time in showing you that this property is all we claim for it, and then some.

Ring us up or call at the office and we'll spin you out to Melrose Heights in the auto and give you the details of our proposition.
